

QUALITY ASSURANCE for ADDITIVE MANUFACTURING

RAPID + TCT/BOOTH NO. 1557
MORE INFORMATION
www.plasmo-us.com

DED & PBF

ENERGY SOURCE:

- Laser
- Electron Beam
- Arc (CMT, TIG, MIG/MAG, plasma)

FEEDSTOCK:

- Wire
- Powder

Quality Assurance

ALL TECHNOLOGIES from a SINGLE SOURCE MODULAR AVAILABLE!

- Process emissions
- Temperature
- Geometry
- Machine learning based algorithms
- Integration of external sensors

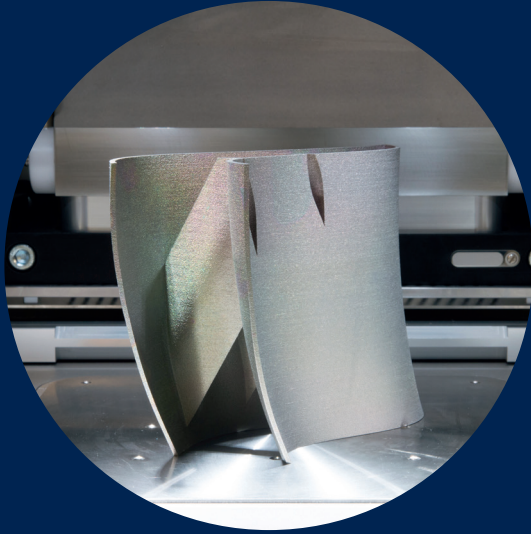

QUALITY INSPECTION

PROCESS OPTIMIZATION

EASY TO HANDLE

DATA TRACKING

QUALITY ASSURANCE for ADDITIVE MANUFACTURING

Application Areas

INDUSTRIALIZED!

- Monitoring
- Development
- Optimization
- Qualification
- Automation

Successfully applied in:

Aviation,
Automotive,
Energy & Oil,
Medical engineering

YOUR benefits

EXTENSIVE EXPERIENCE!

- Shorter product development times
- Efficient production
- Consistent print result
- Cost reduction
- Documentation &
- Full traceability
- IOT - Alert, mobile devices
- Cloud visualization
- Local evaluation
